TRADIZIONE E PROFESSIONALITÀ

La ceramica Alta è attiva, da circa quarant'anni, nel mercato della produzione ceramica di qualità, nel segmento rivestimenti, decori e pezzi speciali.

Sempre attenta al continuo evolversi del gusto e delle tendenze di moda ha formato al proprio interno uno staff di ricerca che ha permesso all'Azienda di creare prodotti in bicottura tradizionale valorizzando: colori, effetti di superficie, pezzi speciali decorati a mano esclusivi. Tutto ciò è stato possibile grazie alla stabilità della Proprietà e del proprio Management nel corso degli anni, che ha permesso di attivare progetti di lungo respiro e nell'ottica dell'innovazione tecnologica di partecipare a studi di ricerca Europei relativi alla qualità e alla particolare caratterizzazione del prodotto.

PRODUZIONE E SERVIZIO

La nostra azienda mette a disposizione della clientela l'intera gamma di prodotti relativi al rivestimento di pregio. La linea di produzione, particolarmente differenziata, è in grado di soddisfare le richieste dei nostri Clienti in modo completo ed esaustivo.

Siamo in grado di fornire, oltre ai tradizionali formati; mosaici, listelli, tozzetti ed una gamma completa di pezzi speciali per realizzare, anche, opere in muratura.

Il processo produttivo della ceramica artistica artigianale, ci consente di proporre al nostro cliente una grande varietà di superfici, colori e formati.

le splendide decorazioni, rigorosamente realizzate a mano, completano la gamma permettendo ampie possibilità di personalizzare la proposta.

La nostra azienda è in grado di soddisfare anche richieste di piccole quantità sfuse, tramite spedizioni con corriere, e si pone come partner ideale per agilità di struttura, flessibilità, affidabilità e completezza del servizio.

UN CUORE PULITO

Anche per la sua collocazione "alto crinale Appenninico, in area ambientale di pregio, al limite di un parco regionale" la nostra azienda, da sempre, ha attentamente applicato le rigorose normative per il rispetto dell'ambiente. Questo particolare non è stato vissuto come un vincolo o una difficoltà ulteriore; semmai, abbiamo l'orgoglio di affermare che fa parte della nostra storia e del nostro futuro. Lo dimostra il fatto che **CERAMICA ALTA**, in partenariato con l'Università degli studi di Padova, ha sviluppato il progetto "**LIFE ZE-tile**". Grazie alla Commissione Europea, che attraverso il programma **LIFE+** sostiene e finanzia prodotti e tecnologie volti alla tutela ambientale.

L'obiettivo del progetto **LIFE ZEF-tile** è dimostrare la possibilità di applicare tecnologie a ossigeno combustibile, nella fase di cottura dei prodotti ceramici, al fine di implementare tecniche di eliminazione e di stoccaggio e della CO₂. Utilizzando ossigeno puro al posto dell'aria per bruciare idrocarburi, come metano, i gas esausti risultanti saranno solamente CO₂ e vapore acqueo.

PRODUCTION AND SERVICE

Our company provides its customers with the full range of products related to the coating of merit.

The production line, particularly differentiated, is able to meet the demands of our customers in a complete and exclusive way. We are able to provide, in addition to the traditional formats: mosaics, moldings, strips, dots and a full range of special pieces to realize, too, masonry. The production process of ceramic art craft allows us to offer to our customers a wide variety of floor areas, colours and sizes. The beautiful decorations, rigorously hand-made, complete the range allowing ample opportunity to customize the proposal. Our company is also able to satisfy requests from small amounts, in bulk, via courier shipments, and present itself as the ideal partner for agility of structure, flexibility, reliability and completeness of service.

TRADITION AND PROFESSIONALISM

The **CERAMICA ALTA** is active, from about forty years, in the market of quality ceramic production, in the segment of coatings, decorations and special pieces.

Always attentive to the continuous evolution of taste and fashion trend, has formed a team of in-house research that has enabled the company to create products in traditional double-firing, enhancing colours, surface effects and exclusive hand decorated special pieces.

Everything was made possible thanks to the stability of the property and its management over the years, which has enabled long-term view projects of technological innovation and to participate to european research studies related to quality and to the particular characterization of the product.

A CLEAN HEART

Also due to its location 'top ridge of the apennines', in the area of environmental merit, to the limit of a regional park, our company, as always, has carefully applied the stringent regulations for the respect of environment. This particular was not seen as a constraint or of further difficulty, if anything, we are proud to assert that it's part of our history and our future.

CERAMICA ALTA, in partnership with Padova's University, has developed the project "**LIFE ZEF-tile**". Thanks to the European Commission and the project "**LIFE+**", it is supported and financed the products and technologies in accordance with environmental protection.

The aim of "**LIFE ZEF-tile**" project is to demonstrate the possibility of applying **oxygen fuel** technologies in the cooking stage of ceramic products and carrying out the techniques for elimination and storage of CO₂ at the end

Merchandising

The image features a light blue wavy line in the upper left corner. A dark blue horizontal band spans the width of the image, separated from the white background above by a dotted line and from the white background below by another dotted line. The word 'Merchandising' is written in a dark blue serif font, centered within the white space above the dark blue band. The word 'sing' is written in a large, light blue cursive script, positioned below the dark blue band and partially overlapping the white space below it.
